MORLIFE™ 300 Liquid Antistripping Additive

Description and Features

MORLIFE 300 is a premium performance product based on a new and innovative chemical alternative to traditional antistripping technologies:

- The elimination of traditional polyamine chemistry results in a low odor, non DOT corrosive asphalt additive.
- Dust Free – does not increase dust content and lower the voids in the mineral aggregate (VMA).
- Significantly improves Tensile Strength ratio results in AASHTO T-283 test procedure.
- Easily metered or pumped using a gear or displacement pump.
- The new chemistry provides a high performance liquid antistripping additive which is more viscous than less concentrated liquid additives.

Standard Shipping Containers

Available in 55 gallon drums, 250 gallon disposable totes or in various bulk quantities, FOB Cincinnati, OH.

Material Safety Data Sheet

Rohm and Haas Material Safety Data Sheets (MSDS) contain pertinent information that you may need to protect your employees and customers against any known health or safety hazards associated with our products.

Under the OSHA Hazard Communication Standard, workers must have access to and understand MSDS on all hazardous substances to which they are exposed. Thus, it is important that you provide appropriate training and information to your employees and make sure they have available to them an MSDS on any hazardous product in the workplace.

We recommend that you obtain copies of the MSDS from your local Rohm and Haas technical representative, or from the sales office nearest to you, before using our products in your facilities.

Upon initial shipment of non-OSHA-hazardous and OSHA-hazardous products (including samples), Rohm and Haas Company sends the appropriate MSDS to the recipient. If you do not have access to one of these MSDS, please contact your local Rohm and Haas representative for a copy. Updated MSDS are sent upon revision to all customers of record. MSDS are also sent annually to all customers receiving products deemed hazardous under the Superfund Amendments and Reauthorization Act (SARA). MSDS should be obtained from suppliers of other materials recommended in this bulletin.

Rohm and Haas Company is a member of the American Chemistry Council (ACC) and is committed to the ACC’s Responsible Care® Program.
