

November 14, 2018

Dear Valued Carrier,

On August 31, 2017, we successfully completed a merger of equals between The Dow Chemical Company and E.I. du Pont de Nemours and Company. The merger resulted in Dow and DuPont becoming subsidiaries of DowDuPont, Inc. DowDuPont is now pursuing the intended separation of the Company's Agriculture, Materials Science and Specialty Products divisions into three independent, publicly traded companies. The intended division separations, which are subject to Board approval, are expected to occur in 2019. Materials Science is expected to separate by April 1 2019, and Agriculture and Specialty Products are expected to separate from one another by June 1, 2019.

You have been identified as a carrier that is currently invoicing a Dow business aligned to the Agriculture Division using the Oracle Transportation Management (OTM) 6.4.1 PRM657 environment. In alignment with the integration of our systems, the existing portal link for OTM 6.4.1 PRM657 will be locked out on November 14, 2018 at 6:00 PM EST as we work to integrate the new system. Starting on November 19, 2018, you will access a new OTM portal link for invoice processing.

**How will this change impact you?**

Beginning November 19, 2018, you will begin using an updated OTM portal link to submit freight invoices for shipments related to the Dow businesses aligned to the Agriculture Division. The only change is the link to OTM, the functionality and the data will remain the same.

You will be receiving another communication confirming your OTM login credentials and the new portal link on November 19, 2018.

Please direct any immediate questions or concerns to [FEMAOTM@dow.com](mailto:FEMAOTM@dow.com). We greatly appreciate your support as we integrate our ERP system.

Additional information will be available online at [www.dow.com/dwdp-changes](http://www.dow.com/dwdp-changes). When you visit this website, you will be given the opportunity to "opt in", which will allow you to receive email updates whenever information is added. It is highly suggested you take advantage of this feature, so you do not miss any important updates.

Regards,

Accounts Payable
