Technical Training Academy

Dow Building Science

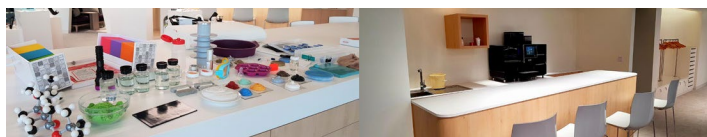

Dow is more than just your innovative silicone materials supplier. We want to collaborate with you on every stage of your project, from concept to completion. This collaboration starts by sharing our proven experience in silicone sealants and adhesives. To support this knowledge sharing, we have developed the Dow Building Science Technical Training Academy for Quality Bond™ members, customers, channel partners, curtain wall designers and consultants who may benefit from interacting directly with our Dow technical and sales support team. In view of the participants' diversity in backgrounds, this will also be an opportunity to connect with industry colleagues.

2025 training program

Training will be offered at our manufacturing site in Seneffe, Belgium, where you will have the opportunity to discover more about Dow through our brand new **inspirationstudio** exhibiting products and applications of our different businesses. Class size is limited to 24 participants per session for reasons of convenience.

inspirationstudio
create tomorrow

The training agenda can be adjusted according to common needs, but includes the following main topics:

- Silicone chemistry, sealant properties & test methods Sealant supply chain overview + production tour Structural glazing technology
- Insulating glass technology
- Project management & quality control procedures Quality Bond™ program
- Customer project support laboratory (+ practical part) Building envelope weatherproofing
- Building material protection Panel bonding technology
- European construction warranty process COOL: Dow CONstruction OnLine
- New innovations overview

The training lasts two days, beginning promptly at 9:00 and concluding at 16:00 the following day. Dow will provide meals during the two-day-training. Transportation from/to hotel during the training will be arranged and provided by Dow, while transportation from/to airport and lodging costs are the responsibility of the participants. Practical information can be found on our registration platform link below. Mark your calendar and register today!

We look forward to welcoming you to Dow Silicones Belgium.
