Attention: Dow Silicones Corporation Customer

Re: **DOWSIL™ 902 RCS Joint Sealant/Installation into Joints Less Than One Inch Wide**

Thank you for your inquiry regarding the above referenced product.

The purpose of this letter is to confirm DOWSIL™ 902 RCS Joint Sealant may be used in joints less than one inch wide. Due to the width of the static mixer, installing into narrower joints may be more challenging. Installation may require more attention to achieving proper recess and sealant bead thickness. Some companies supply static mixer extensions with a reduced diameter to aid in filling narrow joints. Tooling the sealant may also help achieve proper recess and sealant thickness.

On behalf of Dow, we appreciate your business and your commitment to silicone technology. If you have any further questions, please feel free to contact me.

Sincerely,

Dow Silicones Corporation
