Attention: Dow Silicones Corporation Customer

Re: **Installing DOWSIL™ Silicone Pavement Sealants to Existing DOWSIL™ Silicone Pavement Sealant**

Thank you for your inquiry regarding the above referenced products.

The purpose of this letter is to confirm that a fresh bead of DOWSIL™ Silicone Pavement Sealant will bond to, an existing DOWSIL™ Silicone Pavement sealant bead provided the contact surface area is clean and dry. A clean surface can be achieved by either cutting the existing sealant bead to expose clean sealant or by cleaning the sealant with a non-alcohol- based solvent that flashes quickly or DOWSIL™ 1200 OS Primer using the two-cloth cleaning method. A Dow representative can discuss specific solvent choices for your application.

On behalf of Dow, we appreciate your business and your commitment to silicone technology. If you have any further questions, please feel free to contact me.

Sincerely,

Dow Silicones Corporation
