

**ACUMER™ 9950**

Mining Polymer

Description

Dow manufactures a wide range of dispersants and grinding aids to produce mineral slurries in the mining industry. Dow's research efforts are application focused. Our background helps us to screen many different combinations of monomers, molecular weight and processes in search of the polymer that will offer the enhanced benefit to our customers.

General Application

ACUMER™ 9950 Mining Polymer facilitates the lowest viscosity titanium dioxide, calcium carbonate and other mineral slurries, and works well in all clay types under the most extreme conditions.

Recommended Application

- Pigment – Ground Calcium Carbonate
- Pigment – Fine Ground Calcium Carbonate

Typical Properties

ACUMER 9950	Typical	Range	Units
Total Solids	30.0	29-32	%
pH	8.0	7.6-8.8	-

This does not constitute a product specification.

For product specifications, please contact Customer Information Group, CIG, of The Dow Chemical Company.

Handling Precautions

Before using this product, consult the Material Safety Data Sheet (MSDS)/Safety Data Sheet (SDS) for details on product hazards, recommended handling precautions and product storage.

Storage

Store products in tightly closed original containers at temperatures recommended on the product label.

Disposal Considerations

Dispose in accordance with all local, state (provincial) and federal regulations. Empty containers may contain hazardous residues. This material and its container must be disposed in a safe and legal manner.

It is the user's responsibility to verify that treatment and disposal procedures comply with local, state (provincial) and federal regulations.

Product Stewardship

Dow has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products—from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

Customer Notice

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.
