

# ACUMER™ 9400 High Performance Dispersant

For Paper and Paperboard Coatings

# Regional Product Availability

North America

### Description

ACUMER™ 9400 High Performance Dispersant is the sodium salt of polyacrylic acid used for maintaining low viscosities in coating colors and pigment slurries at both ambient and elevated temperatures. The dispersant has extremely low-VOC content (< 50 ppm) and exhibits excellent viscosity stability upon initial formulating and over extended periods. It is especially recommended for dispersing complex pigment systems or in applications where long term heat-aged stability is required.

#### **Typical Properties**

These properties are typical but do not constitute specifications.

Property	Typical Values
Ionic Nature	Anionic
Solids %	42.5
pH as packed	8
Brookfield Viscosity, cP	360
Glass Transition Temperature (Tg C)	N/A
Density, 25 C lbs./US gallon	10.8
Specific Gravity	1.3

### Handling **Precautions**

Before using this product, consult the Material Safety Data Sheet (MSDS)/Safety Data Sheet (SDS) for details on product hazards, recommended handling precautions and product storage.

#### Storage

Store products in tightly closed original containers at temperatures recommended on the product label.

### Disposal Considerations

Dispose in accordance with all local, state (provincial) and federal regulations. Empty containers may contain hazardous residues. This material and its container must be disposed in a safe and legal manner.

It is the user's responsibility to verify that treatment and disposal procedures comply with local, state (provincial) and federal regulations. Contact your Dow Coating Materials Technical Representative for more information.

## Product Stewardship

Dow has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products - from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

#### **Customer Notice**

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.
