

DOW[®]

PARALOID™ Solutions

Superior performance for PVC pipes & fittings

Plastics Additives from Dow offer an exceptional range of solutions for improved performance in pipes and fittings

PARALOID™ Processing Aids

for improved surface smoothness, faster gelation and highly homogenous melts.

Features & Benefits

- Better final aesthetic from improved surface smoothness.
- Grades for foamed core pipes. Offering the ultimate in melt strength for an improved foaming process. This yields lower density, higher expansion and very fine cell structure.
- Reduced production costs. Trouble free extrusion.

PARALOID™ Acrylic Binders and MBS, Impact Modifiers

Features & Benefits

- High impact resistance.
- Improved toughness.
- Ductility.

The right PARALOID™ Binder grade depends on the final application. We offer the best product for your application. Contact your local representative or visit us on Dow.com
