

coolcomfort

Keeping cool is an integral part of feeling comfortable. It's especially important when the materials around us capture heat and humidity. We find comfort and relief in products that are cool to the touch and which stay cool over time.

THE COOLCOMFORT SOLUTION

Breathable

While offering all the comfort of an adaptive, memory-effect product, this solution also features a breathable skin that allows air to flow freely and heat escape easily. With this pillow you can enjoy the ultimate comfort of a memory foam pillow while staying cool.
