

Technical Data Sheet

FLUENT-CANE™ 149 Polyglycol

Foam Control Agent

Description

FLUENT-CANE™ 149 Polyglycol is used in antifoamer formulations for alcohol fermentation in the bioethanol production process. Due to low surface tension, low toxicity, long residual effect in foam control process and easy handling, make excellent foam control agents in formulation with high performance. Its main function is preventing the foam formation during the alcoholic fermentation process.

Applications

- Foam control agents for alcoholic fermentation
- For industrial use, prohibited for use in food and animal feed additive and processing.

Physical properties

Appearance	Liquid, colorless mild
pH	6.0 – 9.5
Flash point, open cup, °C	216
Viscosity, cSt @ 37,8°C	200 – 300
Relative Density, water =1 @20°C	1.04

These properties are typical but should not be considered specifications. For detailed specification rates please consult the product Certificate of Analysis.

Health & Safety Considerations

Safety Data Sheets (SDS) are available from The Dow Chemical Company. SDS are provided to help customers satisfy their own handling, safety and disposal needs and those that may be required by locally applicable health and safety regulations. SDS are updated regularly, therefore, please request and review the most current SDS before handling or using any product. For further questions consult your Dow contact person.

Product Stewardship

Dow has a fundamental concern for all who make, distribute and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products – from the initial concept and research to manufacture, use, sale, disposal and recycle of each product.

Customer Notice

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.
