

Technical Data Sheet

POWERBLOX™ RF-65 Rainfastness Adjuvant

Product Information

Chemical Description

Acrylic co-polymer with 49.0 – 51.0 wt% solid content, solubilized in water

Benefits

- Improves the coverage of pesticides on the plant surface and increases retention time when exposed to rainfall
- Universal performance for various formulations
- Clearance 40 CFR 180.920
- No APEO surfactants included

Applications

Rainfastness adjuvant for In-Can formulations or for Tank-Mix applications

Typical Properties¹

Property	Typical values
Actives	49.0-51.0 wt%
Solvent	Water
Color	White milky emulsion
Viscosity, Brookfield LV #2, 12 rpm, 25°C	650 – 2,000 mPa.s
pH	7.5-9.5

^{1.} These properties are typical but do not constitute specifications

Handling **Precautions**

Before using this product, consult the Safety Data Sheet (SDS) for details on product hazards, recommended handling precautions and product storage.

Disposal Considerations

Dispose in accordance with all local, state (provincial) and federal regulations. Empty containers may contain hazardous residues. This material and its container must be disposed in a safe and legal manner. It is the user's responsibility to verify that treatment and disposal procedures comply with local, state (provincial) and federal regulations. Contact your Dow Technical Representative for more information.
