

Technical Data Sheet

DOWSIL™ Z-6447 Silane

Diphenyldimethoxysilane (DPDMS)

Features & Benefits

- Phenyl functional group
- Dimethoxysilane
- High refractive index (1.54)

Composition

- Diphenyldimethoxysilane

Applications

- Ingredient for silicone-organic resin coating
- Ingredient for siloxane polymer synthesis
- External donor for Ziegler-Natta catalyst

Typical Properties

Specification Writers: These values are not intended for use in preparing specifications.

Property	Unit	Result
Appearance		Colorless liquid
Purity	%	> 99.0
CAS Number		6843-66-9

Description

DOWSIL™ Z-6447 Silane has two phenyl group and dimethoxysilyl functionality. The methoxy-silyl functionality can be hydrolyzed and react with organic polymer and provide new hybrid resin which has higher refractive index and good mechanical properties. DOWSIL™ Z-6447 Silane also react with other siloxane to provide new diphenyl silyl contained polymer. DOWSIL™ Z-6447 Silane can be used for Ziegler-Natta catalyst as donor silane for polypropylene polymerization process.

**Handling
Precautions**

PRODUCT SAFETY INFORMATION REQUIRED FOR SAFE USE IS NOT INCLUDED IN THIS DOCUMENT. BEFORE HANDLING, READ PRODUCT AND SAFETY DATA SHEETS AND CONTAINER LABELS FOR SAFE USE, PHYSICAL AND HEALTH HAZARD INFORMATION. THE SAFETY DATA SHEET IS AVAILABLE ON THE DOW WEBSITE AT DOW.COM, OR FROM YOUR DOW SALES APPLICATION ENGINEER, OR DISTRIBUTOR, OR BY CALLING DOW CUSTOMER SERVICE.

Limitations

This product is neither tested nor represented as suitable for medical or pharmaceutical uses.

**Health and
Environmental
Information**

To support customers in their product safety needs, Dow has an extensive Product Stewardship organization and a team of product safety and regulatory compliance specialists available in each area.

For further information, please see our website, dow.com or consult your local Dow representative.

**Disposal
Considerations**

Dispose in accordance with all local, state (provincial) and federal regulations. Empty containers may contain hazardous residues. This material and its container must be disposed in a safe and legal manner.

It is the user's responsibility to verify that treatment and disposal procedures comply with local, state (provincial) and federal regulations. Contact your Dow Technical Representative for more information.

**Product
Stewardship**

Dow has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products - from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

Customer Notice

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.
