

SYL-OFF™ 4000 Catalyst

Catalyst for SYL-OFF™ solvent-based and solventless silicone release coatings

Features & Benefits

- Accelerates speed of cure at a given temperature
- Reduces temperature required for cure

Composition

- Liquid
- Reactive organo-platinum complex dispersed in polysiloxane

Applications

- Can be used in food-contact applications

Typical Properties

Specification Writers: These values are not intended for use in preparing specifications.

Property	Unit	Result
Appearance		Straw colored
Specific Gravity at 25°C (77°F)		0.96
Viscosity at 25°C (77°F)	cSt	400
Flash Point, Closed Cup	°C	46
	°F	115

Description

SYL-OFF™ 4000 Catalyst is the standard catalyst included in SYL-OFF™ solvent-based and solventless silicone release coatings that are catalyzed by platinum. The addition of SYL-OFF™ 4000 Catalyst to the coating formulation can result in:

- Increased production speeds at a given cure temperature
- Cure temperature reduction, which can result in:
 - Energy savings
 - The capability to cure heat-sensitive substrates

Handling Precautions

PRODUCT SAFETY INFORMATION REQUIRED FOR SAFE USE IS NOT INCLUDED IN THIS DOCUMENT. BEFORE HANDLING, READ PRODUCT AND SAFETY DATA SHEETS AND CONTAINER LABELS FOR SAFE USE, PHYSICAL AND HEALTH HAZARD INFORMATION. THE SAFETY DATA SHEET IS AVAILABLE ON THE DOW WEBSITE AT DOW.COM, OR FROM YOUR DOW SALES APPLICATION ENGINEER, OR DISTRIBUTOR, OR BY CALLING DOW CUSTOMER SERVICE.

Usable Life and Storage

SYL-OFF™ 4000 Catalyst has a shelf life of 24 months from date of manufacture.

Packaging Information

Available in a variety of container sizes.

Limitations

This product is neither tested nor represented as suitable for medical or pharmaceutical uses.

High levels of SYL-OFF™ 4000 Catalyst should not be used against some acrylic adhesives.

Medical Status

This product may be suitable for medical applications without body/skin contact. Contact your local customer service representative for more information.

Health and Environmental Information

To support customers in their product safety needs, Dow has an extensive Product Stewardship organization and a team of product safety and regulatory compliance specialists available in each area.

For further information, please see our website, dow.com or consult your local Dow representative.

Disposal Considerations

Dispose in accordance with all local, state (provincial) and federal regulations. Empty containers may contain hazardous residues. This material and its container must be disposed in a safe and legal manner.

It is the user's responsibility to verify that treatment and disposal procedures comply with local, state (provincial) and federal regulations. Contact your Dow Technical Representative for more information.

Product Stewardship

Dow has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products - from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

Customer Notice

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.
