

## Product Data Sheet

### **ACOUSTICRYL™ SD-65 Copolymer Emulsion**

For Liquid Applied Sound Damping Coatings

#### **Regional Product Availability**

- Global

#### **Description**

ACOUSTICRYL™ SD-65 Copolymer Emulsion is an acrylic copolymer emulsion designed specifically for use in sprayable waterborne sound and vibrational damping coatings.

#### **Key Attributes**

- This latex leads to vibrational damping temperature range 20-30°C in a wide range of un-plasticized formulations when measured in accordance with SAE J1637 or ASTM E-756 or ISO 6721.
- This latex is designed to be able to be formulated at higher filler levels to provide stable coating formulations.

#### **Typical Properties**

Property	Typical Value
Appearance	Milky White
Class	Acrylic Copolymer
Solids (%)	49.0–50.5
Wet Density (lb/gallon)	8.7–8.9
pH	6.7–8.0
Brookfield Viscosity (cP)	< 500
Peaking Damping Range (°C)	20–30

#### **Handling Precautions**

Before using this product, consult the Material Safety Data Sheet (MSDS)/Safety Data Sheet (SDS) for details on product hazards, recommended handling precautions and product storage.

**CAUTION!** Keep combustible and/or flammable products and their vapors away from heat, sparks, flames and other sources of ignition including static discharge. Processing or operating at temperatures near or above product flashpoint may pose a fire hazard. Use appropriate grounding and bonding techniques to manage static discharge hazards.

**CAUTION!** Failure to maintain proper volume level when using immersion heaters can expose tank and solution to excessive heat resulting in a possible combustion hazard, particularly when plastic tanks are used.

**Storage**

Store products in tightly closed original containers at temperatures recommended on the product label.

**Disposal Considerations**

Dispose in accordance with all local, state (provincial) and federal regulations. Empty containers may contain hazardous residues. This material and its container must be disposed in a safe and legal manner.

It is the user's responsibility to verify that treatment and disposal procedures comply with local, state (provincial) and federal regulations. Contact your Dow Technical Representative for more information.

**Product Stewardship**

Dow has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products - from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

**Customer Notice**

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.
