- Improved skill sets of the workforce
- Enhanced quality and performance of construction projects
- Safer work practices
- Increased job satisfaction

BENEFITS FOR WORKSHOP ATTENDEES

- Gain a better understanding of industry best practices
- Acquire new skills and enhance existing ones
- Learn about new technologies and applications
- Receive a certificate to document training

COST

- Available at no charge for a limited time

Skill-building Workshops Taught by Industry Professionals

The Centre for Construction Expertise is an organisation dedicated to providing training tailored to the needs of India's construction industry.

Through informative and skill-building workshops taught by industry professionals, the Centre works to improve the knowledge, skills and effectiveness of tradespeople, students and construction professionals.

These workshops, which are offered across India, include classroom lectures, practical demonstrations and hands-on learning opportunities. Plus, each attendee will receive a certificate of completion documenting his or her participation.

Workshop Topics

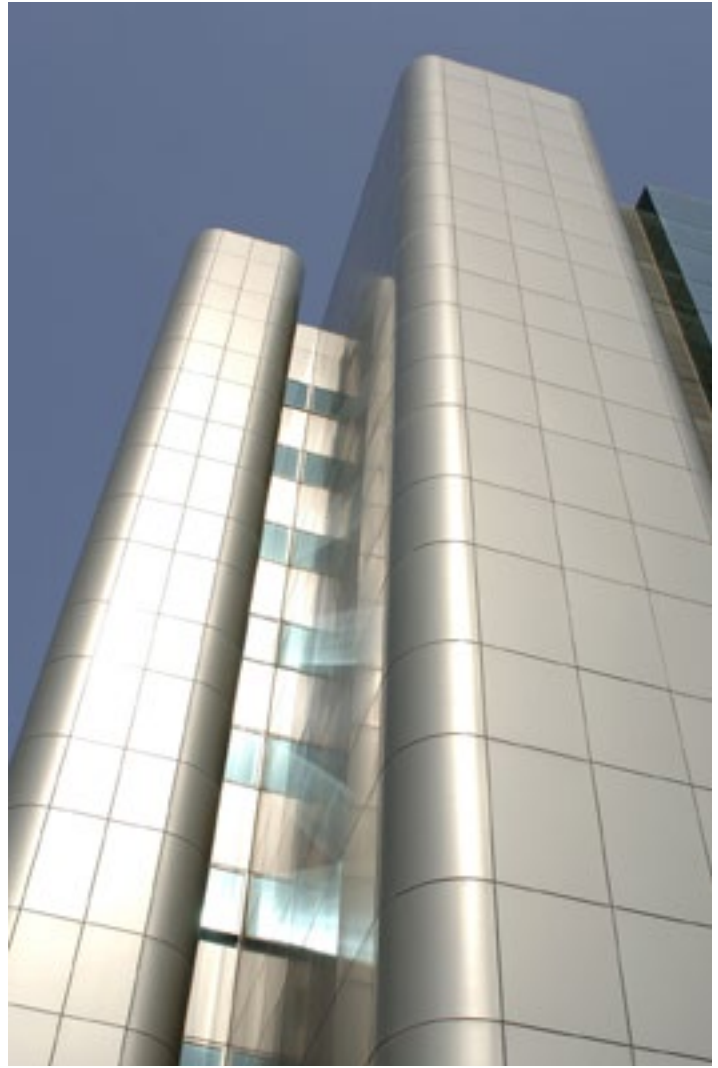

Each workshop will focus on a different construction application, such as weathersealing, glazing systems, or cement and concrete applications. Issues related to both the building interior and the exterior façade will be addressed.

Typical discussion topics include:

- Tools and equipment
- Surface preparation

- Proper application techniques
- How climate affects materials and building performance
- Ways to improve energy efficiency
- How to select the right material for a job
- Performance and application testing procedures

Mumbai, India

Who Should Attend

- Builders, contractors, fabricators
- Architects, consultants, specifiers
- Engineering students
- Weathersealing applicators and installers
- Skilled and unskilled workers
- Building tradespeople – carpenters, plumbers, masons
- Apprentices and trainees
