

Dow Microbial Control

BPR Checklist

- Have you reviewed the BPR¹ status of your biocide suppliers on the ECHA² approved list?
- Have you received corresponding compliance certificates from your suppliers?
- Are your current biocide products/suppliers providing sustainable solutions for your business?
- Will the products be supported under BPR product authorization?
- Is your supplier in a position to provide robust evidence of active substance technical equivalence versus reference source?
- Are the defended use levels meeting your preservation need(s)?
- Is the use scenario fitting your application(s)?
- Will national authorizations of the biocidal product cover your plant/operation location(s)?
